

Mikias Miessa Urgessa

Computer Engineer, Full Stack Developer

✉ mikiasmiessa@gmail.com ☎ +251923566109 📍 Addis Ababa, Ethiopia in mikias-miessa 🌐 Mikias-Miessa

📄 PROFILE

As a recent Electrical and Computer Engineering graduate, my passion for technology and innovation has driven me to excel both academically and as a self-taught developer. With strong analytical and problem-solving skills, I am eager to contribute to cutting-edge projects that make a positive impact in the tech industry. My dedication to continuous learning and creative thinking allows me to tackle complex technical challenges with confidence. I am enthusiastic about leveraging my expertise to develop meaningful solutions and contribute to the ever-evolving world of Software development.

📁 PROJECTS

Tmhirt Bete, Flutter app (I build this app from scratch both frontend and backend) ☑
Tmhrt Bete App enable parents access academic and related data from their school.

Moogter, Flutter app (added several features to the app) can be found on playstore
Moogter is a social media debating platform for thought leaders and influencers.

Food Delivery App, Flutter (API integration) ☑

Twitter Clone, Twitter clone app using Django ☑

This is a Twitter clone built with Django. It allows users to create accounts, post tweets, follow other users, and view their feeds.

QR code based inventory management system, Frontend - HTML, CSS, JavaScript Backend - PHP, MySQL ☑

The main idea of this project is to use QR codes to identify and track inventory items. Each item in the inventory is assigned a unique QR code
